Final-year computer engineering student with solid experience in web development and a strong interest in technological innovation. Adaptable and collaborative, I am eager to further enhance my skills and contribute to impactful projects.

## WORK EXPERIENCE

### FRONT-END DEVELOPER

Dec 2022 - Oct 2024

#### CHAIN INDUSTRIES

Tunis, Tunisia

- Developed dynamic user interface for cryptocurrency and trading platforms with ReactJS and Next.js, converting Figma designs into SEO-friendly websites
- Applied Tailwind CSS for scalable, responsive design and Framer Motion for complex animations increasing user engagement by 25%
- Utilized web3 libraries like Wagmi, Blocknative, and Moralis for token and block transaction fetching, as well as wallet connection.

### FRONT-END DEVELOPER

Aug 2024 - Sep 2024

#### STABLE LABS

REMOTE

- Contributed to building a cutting-edge platform providing seamless access to tokenized real-world financial assets
- Created intuitive and responsive user interfaces to enable global users to effortlessly interact with financial assets, fostering financial inclusion.

### FULL-STACK DEVELOPER

Dec 2022 - Sep 2024

#### FREELANCE

Remote

- Created dynamic, animated user interfaces using React, Next.js, Framer Motion, and Tailwind for various applications, portfolios, and landing pages.
- Translated Figma designs into functional websites and cloned existing sites for updates and improvements.
- Fixed backend issues in existing projects, including CRUD operations and other logic problems.
- Implemented role-based authentication in Next.js projects using NextAuth, including login and registration pages.
- Built a comprehensive Learning Management System using Next.js, Prisma, and Stripe, featuring course browsing, purchase functionality, and progress tracking.

### FULL-STACK DEVELOPER INTERN

Jul 2024 - Aug 2024

#### ALGOSAMA

Mourouj, Tunisia

- Developed a responsive real estate platform using React, TypeScript, Tailwind CSS for modern UI and seamless user interaction, and Framer Motion for dynamic animations.
- Integrated Apollo Client and GraphQL for efficient data fetching of property listings and built a secure backend with Node.js, Express, and MongoDB, leveraging JWT for authentication and Mongoose for database management.

### FULL-STACK DEVELOPER INTERN

Jul 2023 - Aug 2023

#### ESPRIT

Remote

- Developed full-stack solutions for team and project management with Spring and React, emphasizing user-friendly interfaces and data security.
- Implemented project creation, task assignment, and progress tracking with key performance indicators.
- Created features for team creation, role assignment, and performance evaluation to enhance efficiency and collaboration.

## EDUCATION

### ENGINEERING IN COMPUTER SCIENCE

Sep 2022 - Sep 2025

NATIONAL SCHOOL OF COMPUTER SCIENCES TUNISIA (ENSI)

### PRE-ENGINEERING PREPATORY CYCLE

Sep 2020 - Jun 2022

IPEIT

## PROJECTS

### Learning Management System

Developed a Learning Management System with Next.js, Prisma, and Stripe, implementing features like course browsing, purchase functionality, and progress tracking. Integrated Stripe for payments and optimized the database with Prisma.

## SKILLS

**Tech Stack:** React, Next, Tailwind CSS, Express, Spring Boot, HTML, CSS3

**Databases:** MongoDB, PostgreSQL, MySQL, Prisma (Database Toolkit)

**Languages:** JavaScript, TypeScript, Java, Python

## LANGUAGES

**French** (Professional working proficiency) • **English** (Professional working proficiency)
